Activities Ticketing

O'Gorman High School is Transitioning to a Cashless Ticketing System

In partnership with Iowa-based company Bound, we are excited to announce our transition to a **cashless ticketing system** for the 2024-2025 school year for all athletic and fine art events. The new cashless ticketing will provide convenience for our parents and family members who can purchase tickets online anywhere at any time. Purchases at the gate will be card readers for debit/credit cards only. This should reduce lines at the entrance to events as well as provide for a safer environment without large amounts of cash being handled in less than secure environments.

Why Cashless Ticketing?

In our rapidly evolving digital world, there are several key benefits to cashless ticketing:

1. Convenience: Parents, students, and community members can purchase tickets online anytime, anywhere. No more standing in line or needing the exact change.
2. Enhanced Safety: Digital transactions reduce the need for physical cash handling, minimizing the risk of theft or loss, and streamlines the accounting process.
3. Efficiency: Fans and audiences skip bottlenecks at the gate to enjoy improved event experiences.

Single Event and Athletic Season Tickets Available Now

(Sioux Falls, SD) – The Sioux Falls School District (SFSD) is excited to announce the implementation of a new, cashless ticketing system for all district-sponsored activities, athletics, and fine arts events. In partnership with Iowa-based company Bound, this transition to a digital ticketing platform is part of our ongoing commitment to enhancing convenience, safety, and efficiency for our students, parents, and community members.

Why Cashless Ticketing?

In our rapidly evolving digital world, there are several key benefits to cashless ticketing:

1. Convenience: Parents, students, and community members can purchase tickets online anytime, anywhere. No more standing in line or needing the exact change.
2. Enhanced Safety: Digital transactions reduce the need for physical cash handling, minimizing the risk of theft or loss, and streamlines the accounting process.
3. Efficiency: Fans and audiences skip bottlenecks at the gate to enjoy improved event experiences.
4. Environmental Impact: By reducing paper ticket use, we are taking steps towards a more sustainable and environmentally friendly district.

How It Works

The new digital ticketing system, Bound, is designed to be user-friendly and easily accessible. Tickets for all district events can be conveniently purchased online through the SFSD website or the Bound mobile app. Once purchased, tickets can be securely stored on a smartphone or printed for convenience. Additionally, card readers will be available at the gate, making the gameday experience smoother and more convenient.

Contactless payment is no longer a trend but has become the norm around the country. This change to a 100% cash-free box office leads to faster service and shorter wait times for fans.
